

## Art @ Play

Back when I was eight,  
I was creating, not to procrastinate,  
along the books plate, as the teacher advocate.

I used to create mazes at my playmate.  
I still remember seeing Da Vinci's work  
inside the schoolwork clerk.

Inspired by almighty God and creativity.  
Inspired by God's Kingdom and all his creations.

My mate initiate private art educate.  
Eight years inside art gallery,  
Taught by gallery own, mimic by fine art.  
Shown one minute is a lot of time.  
given pencil drawing, during the time.

Practice, practice, practice,  
hours at a time.  
8 hours flew right by.

drew horses at play  
landscapes of birds airway  
pretty female faces, art at play.

Tidbit.  
Follow and develop your passion,  
as it only develops your talent.
